Earthy, natural look

Accommodating to any wood stain color

Most affordable Amish pavilion

45-50 Year average lifespan

Eco-friendly material

# Wood Gazebo

## **CEDAR OCTAGON GAZEBO PAGODA ROOF CUPOLA CEDAR SHAKE**

Our pressure treated wooden gazebo kits are made from the highest quality lumber treated with preservatives which help protect the structure from attack by termites, other insects, and fungal decay. This pressure treated gazebo readily takes most exterior paints and stains, making it a desirable structure to put on your existing deck or to match the color of your house. Each piece of wood is carefully planned, then hand sanded to ensure the highest quality look that will make your backyard a one-of-a-kind secluded retreat.

## **20' CEDAR OCTAGON GAZEBO PAGODA ROOF CUPOLA CEDAR SHAKE**

# Cedar Gazebo

## LAKESIDE GAZEBOS

The western red cedar wood from which our gazebos are made from, contain oily fibers that act as natural preservatives to help the wood resist rot and decay. These naturally occurring oils also give off that distinct cedar aroma that make it unattractive to insects, moths, and other pests. The cedar gazebo readily takes most exterior paints and stains. However, if the gazebo is left unfinished, the cedar wood will weather to a silver-gray color, a no-maintenance look preferred by many. Each piece of wood is carefully planned, then hand sanded to ensure the highest quality look that will make your backyard a one-of-a-kind secluded retreat.

## **CEDAR OCTAGON WITH A PAGODA ROOF ON LAKE**

The western red cedar wood from which our gazebos are made from, contain oily fibers that act as natural preservatives to help the wood resist rot and decay. These naturally occurring oils also give off that distinct cedar aroma that make it unattractive to insects, moths, and other pests. The cedar gazebo readily takes most exterior paints and stains.
