A modern, angular design that adds beauty and security to any landscape.

This fixture provides a generous spread of soft-edged illumination that's ideal for all types of paths and landscape features. Various mounting options available.

Path Lights

VOLT® Elevator Cast Brass Path and Flood Light (Bronze)

Sleek and adjustable brass floodlight elevated for optimal spread.

Our VOLT® Elevator brass fixture is great for floodlighting or path lighting applications. It features an adjustable knuckle and frosted lens to create an extra-wide, highly diffuse beam with soft edges. Ideal for natural illumination on walls and plants.

VOLT® Mini All-Star™ Twinnovator Brass Path & Area Light (Bronze)

Two cast brass Mini All-Stars™ mounted on a single stem. Perfect when you need to elevate your light for paths, driveways or other landscape features.

This path and area light combines the tall stem of a path light with the directionality of two spotlights. Allows you to illuminate two regions with a single fixture. Various mounting options available.

VOLT® Elegant Harp Brass Path & Area Light (Bronze)

This stylish fixture is an ideal complement to ornate architectural and landscape features.

The VOLT® Elegant Harp Path and Area Light is a high quality fixture with a traditional bishop's arch, scroll and fluted shade for an ornate appearance that complements traditional or classical architecture. Pairs well with landscape features such as gazebos, pergolas, formal gardens, and small cottages or sheds that are whimsical or ornate.

VOLT® Traditions Brass Path & Area Light

Solid cast brass path/area light with tilted shade. Ideal for wide paths or landscape features.

Due to the tilted shade, this elegant fixture casts a forward-facing light about 14 feet - a great solution for wide paths or garden beds. Comes with 4' lead wire and Hammer® Stake standard. Various mounting options available.

VOLT® Regal Brass Path & Area Light (Bronze)

VOLT® Regal Brass Path & Area Lights - professional-grade fixture, elegant in appearance and unmatched in performance.

VOLT® Regal Path & Area Lights are professional grade fixtures with an ornate appearance that complements many architectural and landscape styles. The elegant scroll, decorative shade, and classic finial bring a touch of regality to your landscape.

VOLT® Belladonna Brass Path & Area Light (Bronze)

The Belladonna Path and Area Light is an elegant offset fixture ideal for lighting walkways and gardens.

The VOLT® Belladonna Path Light is a professional grade brass fixture with an elegant and ornate appearance. It complements most architectural and landscape styles. It provides wide, evenly dispersed illumination and is ideal for walkways and gardens.

Path Lights

VOLT® G2 Arch Brass Path & Area Light (Bronze)

Traditional curved-style brass path light with adjustable lamp housing.

Traditional curved-style brass path light now with extra adjustable lamp shade. Durable brass construction. Reflective white enamel inside shade for maximum reflection and light/lumen output. Utilizes LED G4 Bi-Pin bulbs. Ideal for direct illumination along paths and in gardens.

VOLT® ShadowMaster Integrated LED Brass Path Light (Bronze)

Make an elegant statement with this award winning path and area light - now in brass.

This unique estate-sized luminaire features charming scrollwork and bold embellishments. At night, light shines through the designs to create a compelling pattern of light and shadow. Perfect for larger homes and properties.

VOLT® 42" Leaf Tower Brass Bollard Light (Bronze)

Decorative nature-inspired bollard light is an eye-catching and functional luminaire beautiful day and night.

Our Bollard Lights are eye-catching luminaires that project a compelling nature-inspired pattern of light and shadow. Since the fixture includes two Cree® LED light sources (one at the base - the other under the top cap) the pattern is projected both up and down.

VOLT® Cypress Stainless Steel Bollard Light (Bronze)

Beautiful day or night, this decorative round bollard light is constructed of stainless steel.

Our Bollard Lights are eye-catching luminaires that project compelling patterns of light and shadow.

VOLT® 12V 24" Mini Rotunda Brass Bollard (Bronze)

Rotunda 24" brass bollard with an antique bronze finish is a high-quality, robust outdoor lighting fixture.

Its four louvered domed construction houses an adjustable MR16 bulb socket than can project up to a 10" circle of uniform illumination.

VOLT® Guardsman Brass LED Post-Top Light (Bronze)

A post-top fixture with glare-free illumination and compelling patterns of light and shadow. Designed to mount on the top of a square 4" x 4" post, this fixture has sturdy brass construction with antique bronze finish. Commonly used for decks, docks and fences. It projects a compelling pattern of illumination onto surrounding surfaces.

Path Lights

VOLT® Coachman LED Brass Path & Area Light (Bronze)

One-of-a-kind coach-style post light with plug-in LED candle and hidden area light. Standing over 62" tall, this estate-sized luminaire serves as a welcoming lantern in your front or back yard. Featuring an ultra-realistic LED BiPin candle (with moving flame), and a hidden LED lamp under the housing - this light is both beautiful and functional. Ideal for larger homes and properties - but also perfectly suited for a smaller traditional home. Patented.

VOLT® 2 in-1 Tiki Brass Torch Light (Bronze)

Two-in-one tiki torch with real flame and hidden low-voltage area light.

New extra robust brass design for added stability and durability. Polynesian-style fixture with flame and LED bulb make this a multi-functional light. Perfect for decks and docks, these tropical fixtures create a festive easy-going atmosphere while providing area lighting for safety and security.

VOLT® Decorative Modern Style Arm

Add on decorative arms to create a stunning aesthetic and add an ornamental charm to your home.

This decorative panel is made from cast brass and is used with our standard size path lights (24") to create a beautiful style.

VOLT® Roman Brass Path Light Finial (Bronze)

Add a designer look to your brass path lights.

Made from solid cast brass, this heavy duty finial will add elegance to your brass path lights. The bottom is threaded to screw on the path light hat for a quick and easy installation.

Spot Lights

Spot Lights

VOLT® All-Star™ Cast Brass Spotlight (Bronze)

VOLT®'S flagship brass spotlight is designed for durability and flexibility. Uses replaceable MR16 LED bulbs for wide selection of color temperatures, wattages and beam angles.

We combined the best features of our most popular spotlights into one premium fixture that features a compact body with fins designed to draw heat away from the LED lamp. Blending performance and durability, this fixture is a designer's dream.

VOLT® Top Dog Cast Brass Spotlight (Bronze)

Back by popular demand. Heavy duty construction with dynamic adjustability; ideal for any uplighting application.

A popular choice for professionals. Very versatile. Large glare guard adjusts up, down, left and right to adjust light spread and glare control. Several mounting options.

VOLT® G2 Fat Boy Brass Spotlight (Bronze)

Budget-friendly, professional-grade brass spotlight; ideal for any uplighting application. Uses replaceable MR16 LED bulbs for a wide selection of options.

The most affordable all-brass spotlight on the market. Features premium internal components and fully-adjustable glare guard and knuckle for precision control. A great solution for any budget without sacrificing professional-grade quality.

VOLT® Lucid Brass Spotlight (Bronze)

Solid brass lamp-ready fixture specially designed for extra-powerful light output.

Designed to primarily be used with our 9W LED MR16 bulb (70W Halogen Replacement), this fixture is specially designed for high lumen output. The recommended bulb features a special thermal foldback design which will help dissipate heat by gradually dimming if needed. Features toolless adjustability for precision light control.

VOLT® Lusitano Cast Brass Spotlight (Bronze)

Our largest estate size, cast brass spotlight. Uses replaceable MR16 LED bulbs for a wide selection of options.

VOLT® engineers started with a heavy, cast brass fixture, then added heat sinks, a fully adjustable glare guard, a large toothed knuckle and a unique industrial design. This spotlight will be a permanent fixture in your landscape, no matter the environment.

VOLT® Lusitano Mini Cast Brass Spotlight (Bronze)

Robust cast brass niche spotlight. Ideal for mounting in planters, garden areas, or other places where a compact fixture is desired.

Compact and durable, this heavyweight solid cast brass landscape lighting spotlight. Uses replaceable MR11 LED bulbs. This fixture is ideal for niche applications such as garden lighting, illuminating statuary or small architectural or landscape features.

Spot Lights

VOLT® All-Star™ Mini Brass Spotlight (Bronze)

Solid cast brass niche spotlight. Ideal for mounting in planters, garden areas, or other places where a compact and discreet fixture is required.

Compact and durable, this heavyweight solid cast brass landscape lighting spotlight offers many uses. Uses replaceable MR11 LED bulbs. This fixture is ideal for niche applications such as garden lighting, illuminating statuary or small architectural or landscape features.

VOLT® Jolt Mini Brass Spotlight (Bronze)

Solid cast brass niche spotlight. Ideal for mounting in planters, garden areas and other places where a compact and discreet fixture is required.

Compact and durable, this heavyweight solid cast brass spotlight offers many uses. Uses replaceable MR11 LED bulbs. This fixture is ideal for niche applications such as garden lighting, illuminating statuary or small architectural or landscape features.

VOLT® Spark Mini Brass Spotlight (Bronze)

Solid cast brass niche spotlight. The small size and range of adjustability is ideal for mounting in planters, garden areas, or other places where a compact and discreet fixture is required.

Compact and durable, this heavyweight solid cast brass landscape lighting spotlight uses a VOLT® MR8 LED bulb (sold separately). This fixture is ideal for niche applications such as garden lighting, illuminating statuary or small architectural or landscape features.

VOLT® All-Star™ Cast Brass Spotlight (Black)

Our flagship brass spotlight is designed for durability and flexibility. Uses replaceable MR16 LED bulbs for wide selection of color temperatures, wattages and beam angles.

We combined the best features of our most popular spotlights into one premium fixture that features a compact body with fins designed to draw heat away from the LED lamp. Blending performance and durability, this fixture is a designer's dream.

VOLT® G2 Fat Boy Brass Spotlight (Black)

Budget-friendly, professional-grade brass black spotlight; ideal for any uplighting application. Uses replaceable MR16 LED bulbs for a wide selection of options.

The most affordable all-brass spotlight on the market. Features premium internal components and fully-adjustable glare guard and knuckle for precision control. A great solution for any budget without sacrificing professional-grade quality.

VOLT® G2 Fat Boy Copper Spotlight

Budget-friendly, professional-grade copper spotlight; ideal for any uplighting application. Uses replaceable MR16 LED bulbs for a wide selection of options.

The most affordable all-copper spotlight on the market. Features premium internal components and fully-adjustable glare guard and knuckle for precision control. A great solution for any budget without sacrificing professional-grade quality.

Hardscape Lights

Hardscape Lights

VOLT® Undercover Hardscape Light (Cast Brass)

Solid cast brass hardscape light. Available with low voltage Bi-Pin LED bulbs. Perfect for mounting under top lip of a wall, under hand railings, under countertop lips, etc.

Constructed of high quality solid cast brass with premium internal components, this completely-sealed fixture has a frosted lens that diffuses the light and provides a soft-edged uniform region of illumination.

The Original VOLT® G2 Rotatable/Pivoting Undercover Brass Hardscape Light (Bronze)

Solid cast brass hardscape light with a rotatable body, allowing for an endless number of applications!

Constructed of high quality solid cast brass with premium internal components. The frosted lens diffuses the light and provides a soft-edged uniform region of illumination.

The Original VOLT® 3" Brass Rotatable/Pivoting LED Hardscape Light (Bronze)

3" fully rotatable, brass hardscape for precision aiming in any location.

Durable, low profile, linear fixtures designed to be easily concealed. Perfect for a variety of applications. They are easy to install, produce an evenly dispersed illumination and are rotatable 360° for maximum customization.

The Original VOLT® 6" Brass Rotatable/Pivoting LED Hardscape Light (Bronze)

Durable, low profile, linear fixtures designed to be easily concealed. Perfect for a variety of applications. They are easy to install, produce an evenly dispersed illumination and are rotatable 360° for maximum

The Original VOLT® 12" Brass Rotatable/Pivoting LED Hardscape Light (Bronze)

12" fully rotatable, brass hardscape for precision aiming in any location.

Durable, low profile, linear fixtures designed to be easily concealed. Perfect for a variety of applications. They are easy to install, produce an evenly dispersed illumination and are rotatable 360° for maximum customization.

The Original VOLT® 18" Brass Rotatable/Pivoting LED Hardscape Light (Bronze)

18" fully rotatable, brass hardscape for precision aiming in any location.

Durable, low profile, linear fixtures designed to be easily concealed. Perfect for a variety of applications. They are easy to install, produce an evenly dispersed illumination and are rotatable 360° for maximum customization.

Hardscape Lights

The Original VOLT® 18" High Output Brass Rotatable/Pivoting LED Hardscape Light (Bronze)

High output version of our 18" fully rotatable, brass hardscape.

Durable, low profile, linear fixtures designed to be easily concealed. Perfect for a variety of applications. They are easy to install, produce an evenly dispersed illumination and are rotatable 360° for maximum customization.

VOLT® Ultra Premium Cast Brass Up/Down Sconce

Sealed solid cast brass sconce, casting light up and down. Using VOLT® LED MR16s, the projected light is evenly distributed without defects.

This is the finest up/down sconce in the low voltage landscape lighting industry. Glass has etched edges that prevent any water from puddling or collecting on top. Body is threaded and screws together tight to make it completely waterproof.

VOLT® Guardsman Brass LED Post-Top Light (Bronze)

A post-top fixture with glare-free illumination and compelling patterns of light and shadow.

Designed to mount on the top of a square 4" x 4" post, this fixture has sturdy brass construction with antique bronze finish. Commonly used for decks, docks and fences. It projects a compelling pattern of illumination onto surrounding surfaces.

VOLT® BuddyPro™ Brass LED Puck Light (2200K - Candle Light Edition)

Compact and made to last. Solid CNC machined brass niche light. Integrated LED. Great for under benches, railings, and overhangs.

Very warm 2200K color temperature - designed to mimic the color of candle light and natural fire glow. Extremely compact (1.5" x 0.625") Cree® LED light constructed of solid CNC machined brass - easy to install and conceal. Fully potted and sealed, it can be surface mounted or core drilled. Simple and quick to install, the light requires no maintenance, and is completely waterproof.

VOLT® Cast Brass Up/Down Integrated LED Deck Light (Bronze)

Introducing the Revolutionary Up/Down Integrated LED Deck Light. The Up/Down Deck Light is a distinctive and elegant cast brass fixture that offers the benefits of a compact deck light along with the beauty and functionality of an up/down sconce. This fixture is ideal for posts on gazebos and arbors, and for wall mounting along steps, stairs and entryways. The unit is also ideal for mounting on columns and pillars.

VOLT® Cast Brass Up/Down Integrated LED Deck Light (White)

Introducing the revolutionary integrated LED Up/Down LED deck light (Titanium White Finish)

The Up/Down Deck Light is a distinctive and elegant cast brass fixture that offers the benefits of a compact deck light along with the beauty and functionality of an up/down sconce. This fixture is ideal for posts on gazebos and arbors, and for wall mounting along steps, stairs and entryways. The unit is also ideal for mounting on columns and pillars.

Down Lights

Down Lights

VOLT® All-Star™ Brass Downlight (Bronze)

Cast brass, MR16 lamp-ready downlight - highly adjustable and durable.

This fixture has been designed specifically for downlighting and moonlighting applications. It includes several innovative features that prevent water from entering the fixture. Its 40 feet of lead wire allow for simple, easy and clean wire splicing no matter how high you install the fixture. Its robust knuckle with 42 locking teeth ensure your fixture stays fixed in its intended position for years to come.

VOLT® Woodsman Single Source Integrated LED Downlight

Introducing the next generation of integrated LED cast brass downlights. Features a 40-foot lead wire, thicker knuckle and tool-less adjustability.

This advanced landscape lighting downlight features integrated single source Cree® LED technology, for crisper shadows and a more professional lighting effect. Safe installation - no tools needed for adjustment, offset quick-connect mount, interchangeable optics, ultra-secure locking knuckle, 40-foot lead wire, heavy duty solid cast brass construction, zero water egress points when fixture is aimed downward, and backed by our lifetime warranty.

VOLT® Ultra-Slim Brass Downlight (Bronze)

Compact, MR11 lamp-ready downlight - highly adjustable and durable.

This fixture has been designed specifically for discreet downlighting & moonlighting applications. Its compact design makes for quick and simple installation. Its 40 feet of lead wire allow for easy and clean wire splicing no matter how high you install the fixture. Its thumb-screw knuckle allows for toolless adjustability and precision aiming.

VOLT® All-Star™ Brass Tommy Light

Cast brass spotlight with extended straight-edged shroud for downlighting. Available with LED MR16 bulbs.

Successor to the Top Dog Tommy Light, this attractive cast brass downlight features extra-long straight-cut adjustable glare guard. Ideal for under ceilings, eaves or overhangs. Projects a medium-sized pool of light to illuminate objects or areas. Surface mount included.

VOLT® Tranquility Brass Hanging Light (No Shade)

Beautiful perforated brass hanging light with chain. Perfect for lanais, decks, patios, gardens and more.

These compact fixtures are designed to produce compelling illumination. They can be hung from limbs, pergolas, gazebos or any overhang. The illumination is a combination of a circular spot directly beneath the fixture and a cluster of star-like dots surrounding the light.

VOLT® Tranquility Brass Hanging Light (With Shade) (CLEARANCE)

Beautiful perforated brass hanging light with shade and chain. Perfect for lanais, decks, patios, gardens and more.

These compact fixtures are designed to produce compelling illumination. They can be hung from limbs, pergolas, gazebos or any overhang. The illumination is a combination of a circular spot directly beneath the fixture and a cluster of star-like dots surrounding the light.

Down Lights

VOLT® Estate Pendant Brass Hanging Light (Bronze)

Beautiful estate-size brass hanging light with chain. Perfect for lanais, decks, patios, gardens and more.

Designed to produce compelling illumination from above. Can be hung from limbs, pergolas, gazebos or any overhang. The illumination is a combination of a circular spot directly beneath the fixture and a decorative pattern surrounding the light.

VOLT® Narrow Extended PVC Downlight Glare Guard (CLEARANCE)

Designed for use with VOLT®'s Woodsman line of Downlights to help control glare.

This downlight glare guard provides an extra measure of glare control without reducing beam angle. Designed for use with VOLT®'s Woodsman line of Downlights. Heavy duty PVC construction for durability and longevity. Adjustable brass thumb screw with c-clip to prevent it from falling out. Package contains shroud only.

VOLT® Extended PVC Downlight Glare Guard | Wide

Designed to provide an extra measure of glare control without reducing beam angle. Made to fit our New Woodsman line of Downlights.
